Sportsman's Hwy 58 Dock	8.1 L	Paved	Agency Creek Campground	0	1
Agency Creek Campground	8.1 L	Paved	Blythe Ferry	7.9	1

\*Before your trip, check the TVA Lake Info App or call 1-800-2264 (select #22 for Apalachia) to determine the river elevation and streamflow. You can assume 3 miles/hour average speed; however, travel speed and time may be impacted when the dam is generating and the flow has increased. Elevations are in feet above sea level. Discharges are in cubic feet per second and are reported at the end of the hour. (RL) River left bank, (RR) River right bank when looking downstream.

- Boat Ramp
- Campground
- Marina
- Wildlife Management Area
- Recreation Areas
- TVA Public Land

Scale: 0 0.2250.45 0.9 1.35 1.8 Miles

**DIFFICULTY** Based on the International Scale of River Difficulty, the Hiwassee River is primarily Class I (moving water with small waves and few obstructions) and Class II (easy rapids with wide, clear channels and some maneuvering required). Certain sections may be considered Class III (rapids with high waves capable of swamping an open canoe, which require complex maneuvering).
